Circumference and length measurements in centimeters (cms)

NOTE:
For A-D and D-E, measure posteriorly and follow leg contour. For E-G measure medially and follow contours.

Remarks

STEPS: 1. Measure the patient at all ■ measuring points. 2. Determine if patient fits within ready-to-wear (RTW) sizing range by using the size chart. 3. If patient does not fit within a RTW, take the additional measurements to order a custom-made (CM) piece and send to Essity. 4. It is possible to mix and match RTW and CM pieces for a patient.
