

JOBST®

Bella™ Strong  
and  
Bella™ Lite

Ready-to-Wear  
**Armsleeves and Gauntlets**

# JOBST® Bella™ Strong

## Comfortable Compression

### Improved comfort, better compliance, and enhanced quality of life

Patients are more likely to be compliant when they feel comfortable wearing a compression garment. **JOBST® Bella™ Strong Ready-to-Wear** products – worn together or separately – effectively control for moderate lymphedema and edema.

#### JOBST® Bella™ Strong Armsleeve

- Comfort Flat wristband reduces rolling and improves durability
- Available with or without silicone band
- Easy to don, armsleeve comes with donning device
- Available with knitted top band

#### JOBST® Bella™ Strong Gauntlet

- Avoids webbing at thumb area
- Extended wrist avoids pinching at the wrist
- Comfort Flat wrist seam reduces rolling

# JOBST® Bella™ Lite

## The Entry Point to JOBST® Quality

The **JOBST® Bella™ Lite** Ready-to-Wear Armsleeve and Gauntlet, together or separately, help maintain the limb size of lymphedema patients. These comfortable garments provide gradient compression to assist in patient management following trauma, surgery or radiation therapy.

- Soft and air permeable, lightweight, durable knit construction
- Reduced compression at the wrist provides an effective and comfortable fit when the Armsleeve and Gauntlet are worn together
- Easy to put on, comfortable to wear
- Armsleeve available with silicone dot band

### INDICATIONS JOBST® BELLA™ STRONG

Armsleeve Compression garments can also be used for: Lymphedema and other edema

Compression garments can also be used for:  
Phlebitis • Post-thrombotic syndrome • Vascular malformations

### INDICATIONS JOBST® BELLA™ LITE

Armsleeve Compression garments can also be used for: Lymphedema and other edema

Compression garments can also be used for:  
Phlebitis • Post-thrombotic syndrome • Vascular malformations • Post-liposuction<sup>†</sup>

### CONTRAINDICATIONS

Arterial insufficiency • Untreated septic phlebitis  
Conditions where increased venous and/or lymphatic return is not desired

<sup>†</sup>20-30 mmHg Armsleeve only.

# COMFORT for you

## Comfort and Performance

**JOBST® Bella™ Strong** provides patients with the latest development in fiber science. The skin-friendly multifiber nylon combines the clinically effective management of lymphedema with a natural feeling all day long, day after day.

**JOBST® Advanced comfort**

- Quickly wicks moisture
- Keeps you cool and comfortable
- Feels soft to the skin
- Helps to regulate relative humidity, feeling cooler in warm conditions and warmer in cool conditions

Silicone dot band to help prevent sliding.

Air permeable, soft and light-weight knit construction.

Additionally, armsleeve garments are available with and without silicone bands for added comfort and fit.

In addition, the open knit structure allows for an improved air permeability that keeps patients' skin drier than the competition.

Bella™ Strong: 20-30 mmHg

Bella™ Strong: 30-40 mmHg

Competitor I: 30-40 mmHg

Competitor II: 30-40 mmHg

# INNOVATION for you

## Innovative sizing system - Covers an unrivalled range of patient dimensions

Considering over 50 years of scientific research and practical experience as well as the data from over 36,000 lymphedema patients for the armsleeve and over 33,000 for the gauntlet, JOBST® has developed an innovative measuring-size-system.

Catering to all relevant armsleeve measuring points – wrist, mid-lower and mid-upper arm – this thorough approach, accepts the largest range of patient dimensions. **JOBST® Bella™ Strong** armsleeve sizing begins at the forearm, as data shows that we can accommodate more patients; this allows for multiple size options in the wrist and mid-upper arm for greater coverage, recognizing that every patient is unique.

### JOBST® Bella™ Strong Armsleeve: Ten-size system provides over 80% fit coverage

Competitors' wrist centric size determination limits fit coverage.

### JOBST® Bella™ Strong Gauntlet: Over 90% fit coverage

With the eight-size system the **JOBST® Bella™ Strong** gauntlet reaches an outstanding range of fit coverage.

\* Laboratory testing results are intended to illustrate a product's performance under controlled conditions. Actual use results may vary.

## Donning made easy

It requires less force to put on the **JOBST® Bella™ Strong** Ready-to-Wear Armsleeve than those of the competition.

### Competitive Testing: Relative force to don<sup>1</sup>

<sup>1</sup> Data on file.

\*Caution: This product contains natural rubber latex which may cause allergic reactions.

### Donning Aids

**JOBST® DONNING AID** included in every armsleeve package.

**JOBST® DONNING GLOVES<sup>\*</sup>** create friction, provide grip and help to distribute the fabric evenly.

# SIZING for you

## JOBST® Bella™ Strong Armsleeve

Size	Wrist (cC)	Mid forearm (cD)	Mid upper (cG)
1	14-18 cm	17-21 cm	22-31 cm
2	14-18 cm	17-21 cm	31-41 cm
3	14-18 cm	21-25 cm	25-34 cm
4	16-19 cm	21-25 cm	28-38 cm
5	17-20 cm	21-25 cm	34-43 cm
6	14-18 cm	25-29 cm	29-38 cm
7	17-20 cm	25-29 cm	33-43 cm
8	18-21 cm	25-29 cm	38-48 cm
9	16-19 cm	29-33 cm	32-42 cm
10	19-22 cm	29-33 cm	36-46 cm

### Sizing instructions

Finding the right size for each patient is easy since stepwise exclusion leads to the perfect solution:

1. Measure wrist circumference.
2. Measure mid forearm circumference.
3. Measure circumference of the mid upper arm.

If you are left with two sizes to choose from, we recommend selecting the larger size for ease of donning, overall comfort, and compliance. Either size selection will deliver the desired therapy.

## JOBST® Bella™ Strong Gauntlet

Size	Palm at base of fingers (cA)	Wrist (cC)
1	15-17 cm	14-18 cm
2	17-19 cm	14-18 cm
3	17-19 cm	18-21 cm
4	19-21 cm	14-18 cm
5	19-21 cm	18-21 cm
6	21-23 cm	16-19 cm
7	21-23 cm	19-22 cm
8	23-26 cm	19-22 cm

### Sizing instructions

1. Measure palm circumference. This leaves 1 or 2 choices.
2. Measure wrist circumference.
3. Select product.

## JOBST® Bella™ Lite Armsleeve

Size	Wrist	Mid-Lower	Mid-Upper
S	13.5 cm-19.5 cm	17.8 cm-23.2 cm	21.5 cm-39.5 cm
