

JOBST

Bella™ Strong
and
Bella™ Lite

Ready-to-Wear
Armsleeves, Gauntlets and Gloves

IMPROVED for you

JOBST® Bella™ Strong

Comfortable, Cost-Effective Compression

Improved comfort, better compliance, and enhanced quality of life

Patients are more likely to be compliant when they feel comfortable wearing a compression garment. JOBST® Bella™ Strong Ready-to-Wear products – worn together or separately – effectively control moderate to severe lymphedema and edema.

JOBST® Bella™ Strong Armsleeve

- Comfort Flat wristband reduces rolling and improves durability
- Available with or without silicone band
- Easy to don, armsleeve comes with donning device
- Available with knitted top band

JOBST® Bella™ Strong Gauntlet

- Avoids webbing at thumb area
- Extended wrist avoids pinching at the wrist
- Comfort Flat wrist seam reduces rolling

JOBST® Bella™ Strong Glove

- A perfect compliment to the Bella™ Strong Armsleeve
- The Bella™ Strong Gloves offers more sizing options than any comparable ready-to-wear glove in the market
- Utilizes advanced flat-knit technology

INDICATIONS

Edema • Mild to moderate Lymphedema • Hypertrophic scars

Compression garments can also be used for:

Phlebitis • Post-thrombotic syndrome • Vascular malformations

CONTRAINDICATIONS

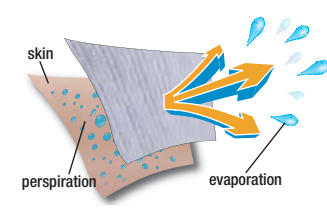

Arterial insufficiency • Cutaneous infection • Dermatitis in the acute phase
Wet dermatosis • Conditions where increased venous and/or lymphatic return is not desired

COMFORT for you

Superior Comfort, Superior Performance

JOBST® Bella™ Strong provides patients with the latest development in fiber science. The skin-friendly multifiber nylon combines the clinically effective management of lymphedema with a natural feeling all day long, day after day.

JOBST® Advanced comfort

- Quickly wicks moisture
- Keeps you cool and comfortable
- Feels soft to the skin
- Helps to regulate relative humidity, feeling cooler in warm conditions and warmer in cool conditions

Silicone dot band to help prevent sliding.

Air permeable, soft and light-weight knit construction.

Additionally, armsleeve garments are available with and without silicone bands for added comfort and fit.

In addition, the open knit structure allows for an improved air permeability that keeps patients' skin drier than the competition.

Bella™ Strong: 20-30 mmHg

Bella™ Strong: 30-40 mmHg

Competitor I: 30-40 mmHg

Competitor II: 30-40 mmHg

INNOVATION for you

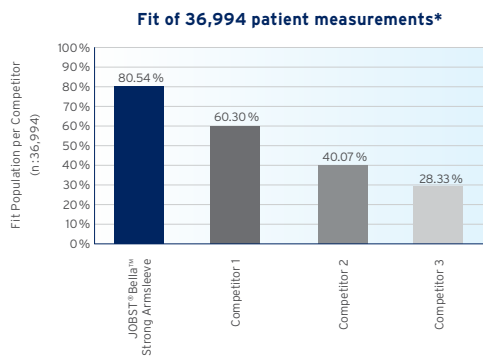

Innovative sizing system - Covers an unrivalled range of patient dimensions

Considering over 50 years of scientific research and practical experience as well as the data from over 36,000 lymphedema patients for the armsleeve and over 33,000 for the gauntlet, JOBST® has developed an innovative measuring-size-system.

Catering to all relevant armsleeve measuring points – wrist, mid-lower and mid-upper arm – this thorough approach, accepts the largest range of patient dimensions. **JOBST® Bella™ Strong** armsleeve sizing begins at the forearm, as data shows that we can accommodate more patients; this allows for multiple size options in the wrist and mid-upper arm for greater coverage, recognizing that every patient is unique.

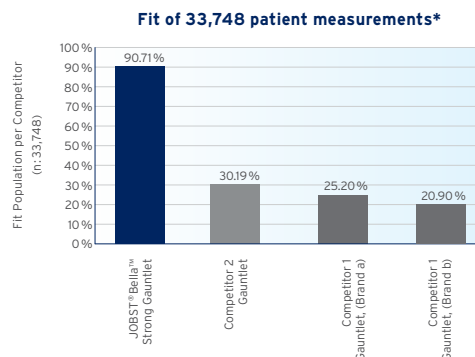

JOBST® Bella™ Strong Armsleeve: Ten-size system provides over 80% fit coverage

Competitors' wrist centric size determination limits fit coverage.

JOBST® Bella™ Strong Gauntlet: Over 90% fit coverage

With the eight-size system the **JOBST® Bella™ Strong** gauntlet reaches an outstanding range of fit coverage.

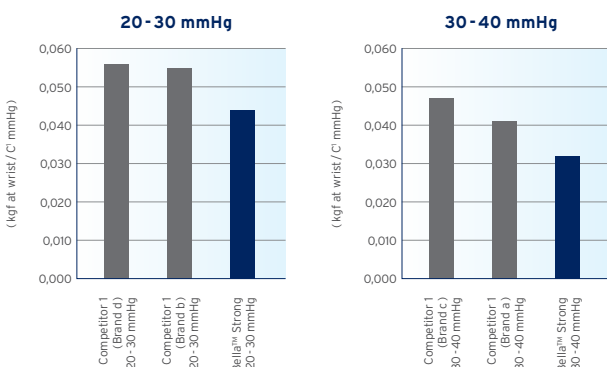

* Laboratory testing results are intended to illustrate a product's performance under controlled conditions. Actual use results may vary.

Donning made easy

It requires less force to put on the **JOBST® Bella™ Strong** Ready-to-Wear Armsleeve than those of the competition.

Competitive Testing: Relative force to don¹

¹ Data on file.

*Caution: This product contains natural rubber latex which may cause allergic reactions.

Donning Aids

JOBST® DONNING AID included in every armsleeve package.

JOBST® DONNING GLOVES^{*} create friction, provide grip and help to distribute the fabric evenly.

SIZING for you

JOBST® Bella™ Strong Armsleeve

Size	Wrist	Mid forearm	Mid upper
1	14-18 cm	17-21 cm	22-31 cm
2	14-18 cm	17-21 cm	31-41 cm
3	14-18 cm	21-25 cm	25-34 cm
4	16-19 cm	21-25 cm	28-38 cm
5	17-20 cm	21-25 cm	34-43 cm
6	14-18 cm	25-29 cm	29-38 cm
7	17-20 cm	25-29 cm	33-43 cm
8	18-21 cm	25-29 cm	38-48 cm
9	16-19 cm	29-33 cm	32-42 cm
10	19-22 cm	29-33 cm	36-46 cm

Sizing instructions

Finding the right size for each patient is easy since stepwise exclusion leads to the perfect solution:

1. Measure wrist circumference.
2. Measure mid forearm circumference.
3. Measure circumference of the mid upper arm.

If you are left with two sizes to choose from, we recommend selecting the larger size for ease of donning, overall comfort, and compliance. Either size selection will deliver the desired therapy.

All sizes are available in 2 lengths:

Regular (up to 43 cm); **Long** (greater than 43 cm)

JOBST® Bella™ Strong Gauntlet

Size	Palm at base of fingers (cA)	Wrist (cC)
1	15-17 cm	14-18 cm
2	17-19 cm	14-18 cm
3	17-19 cm	18-21 cm

IMPROVED for you

JOBST® Bella™ Lite

The Entry Point to JOBST® Quality

The **JOBST® Bella™ Lite** Ready-to-Wear Armsleeve, Gauntlet and Glove, together or separately, help maintain the limb size of lymphedema patients. These comfortable garments provide gradient compression to assist in patient management following trauma, surgery or radiation therapy.

FEATURES AND BENEFITS

- Soft and air permeable
- Lightweight, knit construction
- Fits a wide range of arm and hand shapes
- Reduced compression at the wrist provides an effective and comfortable fit when the Armsleeve and Gauntlet are worn together
- Easy to put on, comfortable to wear
- Durable
- Armsleeve available with silicone dot band

INDICATIONS

Edema • Lymphedema

Compression garments can also be used for:

Phlebitis • Post-thrombotic syndrome • Vascular malformations • Post-liposuction[†]

CONTRAINDICATIONS

Arterial insufficiency • Cutaneous infection • Dermatitis in the acute phase
Wet dermatosis • Conditions where increased venous and/or lymphatic return is not desired

* The mean compression for an average forearm size. ** The mean compression for an average palm size. † 20-30 mmHg Armsleeve only.

ORDERING for you

JOBST® Bella™ Lite Glove

The **compression glove** that goes **hand-in-hand** with other JOBST® Bella Lite products

Durable and latex-free, the JOBST Bella Lite glove provides gentle compression for patients with mild to moderate edema. Its ultra-thin fabric and fine seams ensure great wearing comfort. The glove is available in **eight sizes**, covering a broad range of patients and provides a perfect complement to the rest of the JOBST Bella Lite assortment.

Donning the glove

The glove can be worn on either hand: On the right hand, the label is visible on the wrist. To wear on the left hand, turn the glove inside out, inverting the fingers. The label is then on the inside.

Follow these steps when putting on your glove:

1. Slip fingers into glove and position it comfortably around the palm and thumb (Fig. 1).
2. The glove should be positioned so that the fingers end near the beds of the fingernails (Fig. 2).
3. If the fingers are too long, mark the required length, remove the glove and trim accordingly.

Fig. 1

Fig. 2

Take care not to remove too much of the finger length. Open wounds should be covered before applying glove. Remove jewelry before applying.
