

Our JOBST® JoViPak® Classics for Nighttime Compression

**Classic Arm Sleeve**

These garments are gradient compression sleeves filled with chipped foam that assists in: the breakdown of trapped proteins to help move more lymphatic fluid and helps manage swelling of the arm.

- Contoured arm sleeve
- Added comfort through anatomically-positioned thumb stub and anticubital dart
- Made-to-Measure styles also available

**Classic Lower Leg**

These Ready-to-Wear garments are suggested for lower leg lymphedema or edema and encourage effective lymph drainage.

- Standard version: top of toes exposed
- Made-to-Measure styles also available

**JoViJackets**

JOBST® JoViPak® in combination with the JOBST® JoViJacket is designed for effective night-time lymphedema management providing the needed compression of 20-30 mmHg

- Available for Arm, Leg, Busti, Shoulder Torso, Vest, Hip Hugger, Boxer and Boxer Capri

# JOBST® & JOVIPAK®

PROVIDE BEST-IN-CLASS THERAPY SOLUTIONS FOR LYMPHEDEMA

The management of lymphedema can be challenging, both for patients and therapists. **Essity®** offers several customized solutions to meet the individual's needs. Optimal therapeutic results can be achieved from using **JOBST®** medical compression garments, bandages and wraps, and skin and wound care products.

With over 60 years of expertise in compression therapy and its patient-centered philosophy, **JOBST®** products are the #1 Physician Recommended brand in Lymphedema Management.

**JoViPak®** products were developed by renowned lymphedema therapist, educator, and cancer survivor, JoAnn Rovig. They are used in the management of edema and lymphedema, and are complimentary devices used in wound care, and post-surgical procedures.

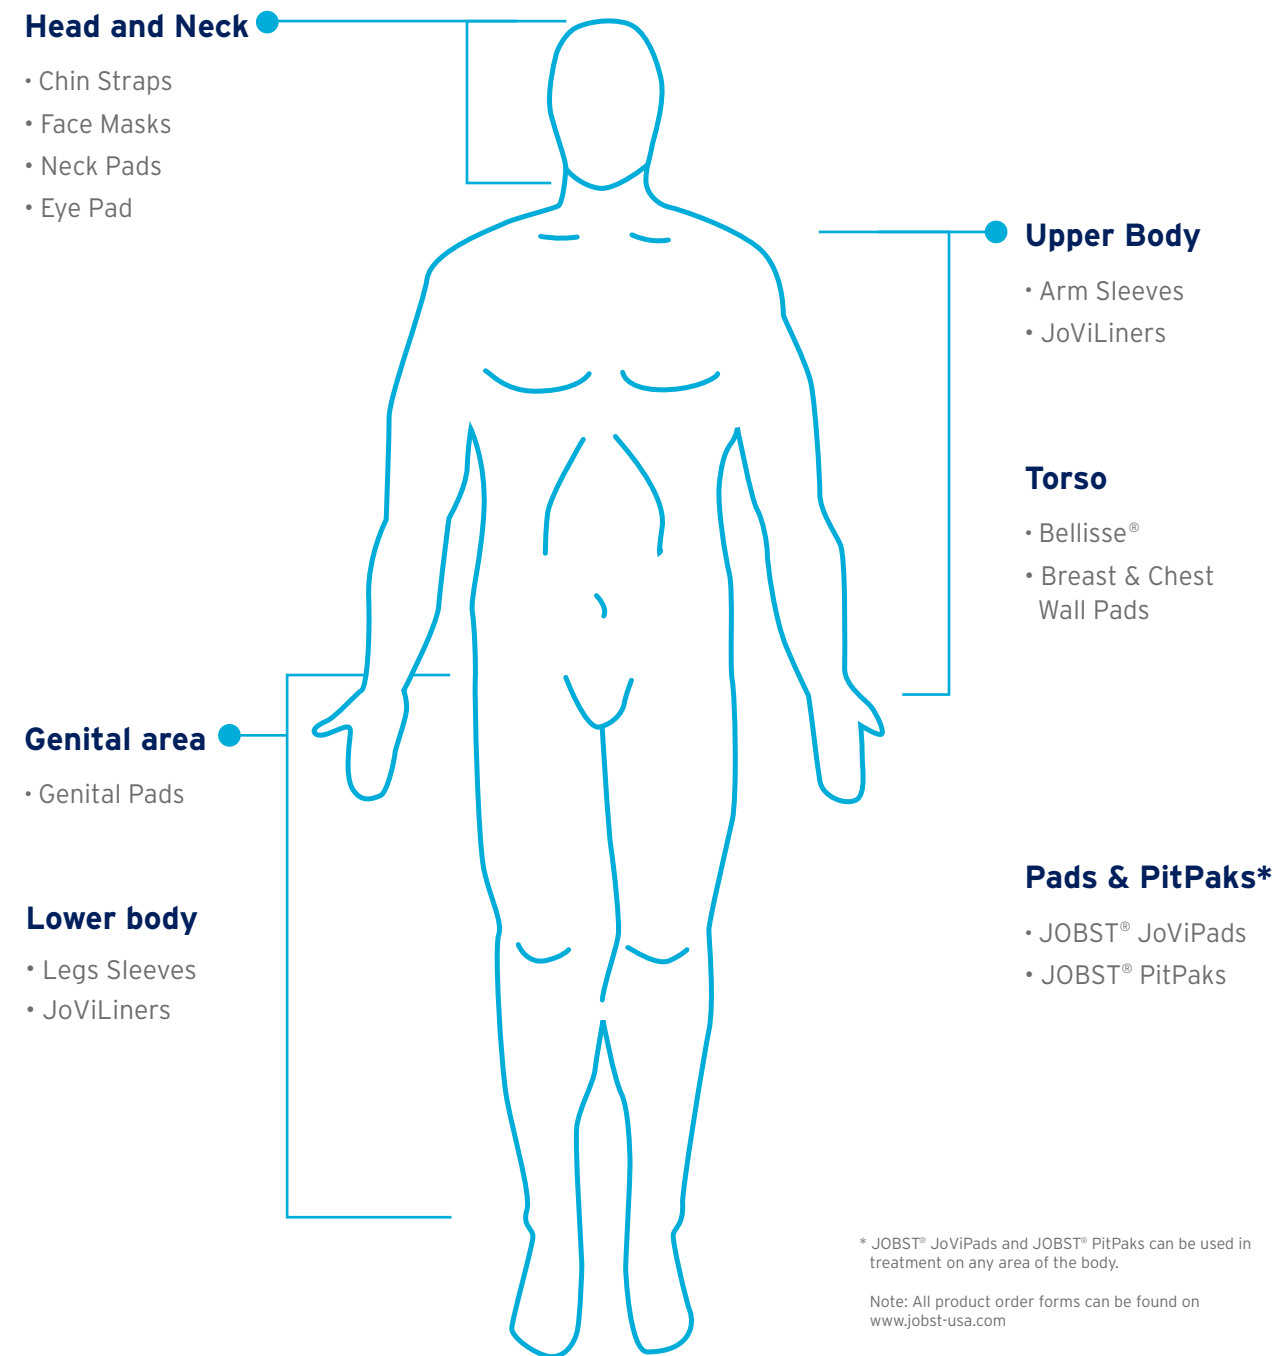

# TOTAL BODY SOLUTIONS

COMPRESSION WHERE YOU NEED IT WITH JOBST® JOVIPAK®

**JOBST® JoViPak®** garments offer easy-to-use alternatives to nighttime compression bandaging. These foam filled garments provide pressure onto the tissue and, with the recommended JoViJacket, provide additional compression for optimal benefits. Below are ready-to-wear garments; however **JOBST® JoViPak®** offers **custom made garments for any part of the body, in any size, and with an array of option choices.**

JOBST® JoViPak® ready-to-wear and made-to-measure leg and arm garments and the outer JOBST® JoViJacket, together are designed to provide approximately 20-30mmHg compression.

\* JOBST® JoViPads and JOBST® PitPaks can be used in treatment on any area of the body.

# UNIQUE FEATURES AND BENEFITS

## Stitched channeling technology.

- Aims to support lymph fluid drainage

**Polartec® Power Dry® fabric offers special microfiber yarns and a unique weave to disperse moisture and heat across a wide surface area.**

- Helps quick drying of fabric

**Smooth, highly durable yarns optimized to help move moisture away from the skin.**

- For comfortable wearing

Garments made of **Organic Cotton and Spandex** may be used for patients with a skin sensitivity to polyester, and for products with Velcro® closures as Velcro® closures will snag the **Polartec® Power Dry®** fabric.
